ABOUT US

THE STORY OF BROOKS

5

1979... at the age of just 23, Doug Brooks took a risk and purchased two unserviceable air compressors on bank card.

Between working 12 hour shifts as a Fitter on Barrow Island, Doug repaired the compressors and soon started hiring them out.

Not long after that, Doug quit his job and opened 'BROOKS HIRE'. He ran his business from a tin shed in the remote WA town of Eneabba while living in a humpy at the back of the shed.

Brooks Hire Service is 100% Australian owned and operated. We've built our reputation of reliability and integrity from our humble beginnings in 1979.

1987... After meeting Roma the love of his life, Doug moves the business to Perth where they open a branch in Cannington.

1982... Doug purchased his first piece of mobile equipment, a JEC crane. He drove the crane for 13 hours from Perth to Eneabba to get it on site.

2000... Eldest son Keith Brooks (left), and cousin Steve Drage join Brooks Hire as Apprentice Plant Mechanics. They are now National Operations Manager and Operations Manager respectively.

1993... Doug and Roma purchase a vacant block of land in Canning Vale. Doug custom builds the infrastructure to accommodate his growing business.

2003... Brooks Hire introduce their 'Harley Davidson Motorbike Giveaway' competition with the first winner being Complete Underground Power.

2002... Second son Stuart Brooks joins Brooks Hire as an Apprentice Plant Mechanic before moving into the Hire Department. He is now the Managing Director of the Brooks Group of companies.

Brooks Hire is the largest privately owned construction equipment hire company in Australia. We specialise in the supply of equipment to the civil and mining industries.

Based on our reliability and trusted reputation, Brooks has now grown to include 21 branches Australia wide, with over 5000 pieces of equipment for hire. That's why you're better being with Brooks.

2009... The GFC hits Brooks hard but Doug takes a risk and opens a second branch in Karratha, WA. It pays off and is a real turning point for the business.

2012... After completing a Degree in Commerce, the youngest Brooks, Lenore joins the Brooks Hire team. Lenore is now the General Manager of the Hire Division.

2014
7 Branches
Open.

2013
500 Machines On Hire!
3 Branches Open.

2015
11 Branches
Open.

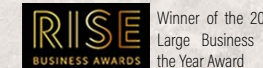

2016
13 Branches
Open.

2021... New divisions - Brooks Access, Brooks Equipment, Brooks Transport, and Brooks Site Services are formed.

We are also winners of the RISE Large Business Award, and Australian Earthmoving Hire Company of the Year Award.

Winner of the 2021 Large Business of the Year Award

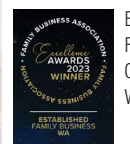

2020... The Brooks family celebrates 40 years in business.

2023... Doug Brooks is named the EY Entrepreneur of the Year People's Choice winner.

Hire Company Of The Year, Finalist

Established Family Business Of The Year WA, Winner

A new Branch opens in Tom Price, WA, making it a total of 21 branches Australia wide.

2022... Over 1000 machines on hire! Two Branches open in Geraldton and Broome, WA. Brooks Cranes and Brooks Airways Divisions are launched.

Why Choose Brooks?

Brooks has been supplying earthmoving plant to the Construction and Mining industries since 1979. We are the largest privately owned earthmoving and construction equipment hire company in Australia.

Brooks group of companies is made up of seven divisions:

- **Brooks Hire Service**
Hire of earthmoving & construction equipment.
- **Brooks Site Services**
Design, installation, and maintenance of site services.
- **Brooks Equipment Sales**
Sale of earthmoving & construction equipment.
- **Brooks Access**
Hire & sale of access equipment.
- **Brooks Cranes**
Hire of cranes.
- **Brooks Transport**
Transport of heavy machinery & earthmoving equipment.
- **Brooks Airways**
FIFO flights, corporate charters, and urgent air freight.

Every industry, we've got you covered!

Civil

There are many large civil construction projects that Brooks Hire have been involved in.

Road/Rail

We have every machine required for the construction of roads, railways, bridges, tunnels and more.

Mining

Our Australia wide mining clients benefit from our range of state of the art mining machinery.

Demolition

We'll supply the required earthmoving machines and plant equipment to facilitate your demolition project.

Pipeline

You'll find all of the necessary machines and attachments for pipeline construction at Brooks Hire.

Energy

Providing equipment for constructing refining plants and the day to day operations of the facility.

Access Equipment

Brooks Site Services

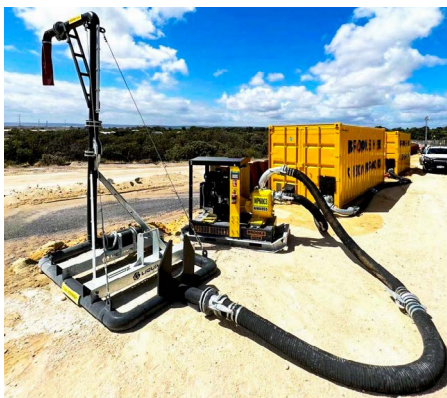

Brooks Site Services is a solution-based specialist division in early work packages from construction water supply and site facilities to power generation and traffic management, with a focus on net zero equipment with solar, hybrid, electric and battery options to help reduce emissions and operational costs.

The differentiating factor of our Site Services division is that we have the capability to design, supply, install and manage each project on a national basis. We also have the capability of purchasing equipment for specific projects with hire and sales options readily available.

Our team is backed up with a purpose-built workshop, trade qualified technicians, and hire coordinators who are always on standby for around the clock service.

☎ 1300 BROOKS (276 657) @ sales@brookssiteservices.com.au 🌐 www.brookshire.com.au

Brooks Cranes

The Crane Industry Council of Australia

In 2022, Brooks further diversified with the establishment of another new division – Brooks Cranes. Although Brooks Hire's first mobile piece of equipment was a crane, all cranes had been retired from the fleet by 2000. The purchase of two Franna cranes in 2022 has once again broadened our capabilities.

The brand new Franna MAC 25-4 crane features a maximum lifting capacity of 25 tonnes.

In addition to the Franna MAC 25-4, Brooks Cranes has also purchased a Franna AT 22. This pick and carry model has similar key features to the MAC 25-4, but with a lifting capacity of 22 tonnes.

Brooks will continue to diversify to meet the needs of our clients.

☎ 1300 BROOKS (276 657) @ sales@brooksaccess.com.au 🌐 www.brooksaccess.com.au

Brooks Access

Brooks Access was established to broaden the range of hire equipment that Brooks Hire Services has to offer. The division has forged its own path in the access industry becoming a leading supplier of access equipment for both hire and sales.

Brooks Access offers a wide range of equipment from quality suppliers that caters to the construction, agricultural, and oil and gas industries. All equipment is serviced and maintained to the highest safety standards and OEM guidelines. Brooks team of trade qualified technicians, and hire coordinators are always on standby for around the clock service.

If you require a piece of equipment and Brooks doesn't have it in stock, we have the capability to purchase it for you brand new.

Lifting You To New Heights

We stock access equipment in the following categories

Knuckle / Articulated Booms

Straight / Telescopic Booms

Brooks Transport

The Evolution of Brooks Transport

1980's

The first piece of mobile machinery that was ever purchased by Brooks Hire Service was an 8 tonne JEC crane. The machine was located in Perth, and it needed to be transported to Eneabba, some 300kms away. Unable to afford the cost of transport, Doug Brooks decided to drive the crane there himself. After a near miss with a passing truck, it was clear to Doug that he needed to come up with a safe and affordable way to transport his machines.

A short time after this, Brooks Hire Service invested in their first prime mover, a White Road Commander. As the business grew, so did their fleet of trucks.

1990's

2000's

2010's

Fast forward to 2020 and it was clear that Brooks Hire Service now had the capacity to branch out and establish a national transport business in its own right. Four brand new Volvo FH540 6x4 prime movers were purchased along with several custom made low loader trailers. These vehicles joined the existing fleet of prime movers, tilt tray trucks, and tipper trucks to form Brooks Transport.

2024

Brooks Transport is no longer limited to only transporting our own machines. We have the capability to provide a fully rounded freight service for any type of cargo, to any location in Australia.

Heavy Haulage Australia Wide

Brooks Transport fleet of late model prime movers and low loaders are able to carry loads up to 85 tonnes.

Brooks Equipment

Brooks Equipment was formed following repeated customer enquiry to purchase construction machinery. As part of Brooks group of companies, Brooks Equipment Sales specialises in the sale of new and used construction equipment.

Brooks Equipment offers Sany excavators ranging in size from 1.6 tonnes right up to 87 tonnes ready to sell right now.

We have also forged alliances with trusted manufacturers such as Husqvarna Construction, Italdem, Genmac, and Chicago Pneumatic to bring our customers a range of quality equipment.

Brooks Equipment also offers our customers a range of used earthmoving plant as well as new and used parts. Finance options are available.

Brooks Airways

Brooks Airways has been Australia's leading private charter flight operator since 2001. We offer safe, reliable, and flexible private charter flights to individuals, and fly in fly out (FIFO) flights to the mining, oil and gas, and resources industries.

Our dedicated Perth-based FBO is conveniently located next to the Perth Airport regional car park and features a private lounge with full kitchen and bathroom facilities.

Brooks Airways has the flight capability to charter flights anywhere in Australia and internationally with remote airstrip capability.

Our charter flights can depart at any time that suits your requirements. That's why you're better being with Brooks.

Expert Air Charter Services

In addition to our private charter flights, Brooks Airways also operates a dedicated medical evacuation (medEvac) division. Medical Air Ambulance has a skilled team of highly trained professional pilots & doctors on 24/7 standby, offering a complete bed to bed transfer service from anywhere in the world.

Our Medical Air fleet are fitted with modern medical equipment allowing ICU level care in the air.

Our Partners

The best brands and the latest models

When you think of the best in the business, you think of Sany, Komatsu, Caterpillar, Volvo, Hitachi, Husqvarna, Dynapac, Bomag, JCB, John Deere, Bobcat and Isuzu.

We support the most respected and reliable brands so that you can be sure you're getting the best quality equipment available. Our fleet is expanding on a daily basis as we source the newest and latest model machines.

Brooks Hire Service has also dedicated field service technicians and qualified product specialists who are always on standby for around the clock service.

We supply equipment and site services on some WA's largest projects, proving the trust that customers put into Brooks as their supplier.

Industry Association

We are proud members of:

- | Hire & Rental Industry Association
- | The Crane Industry Council of Australia
- | Elevated Work Platforms Association
- | Telescopic Handlers Association
- | Civil Contractors Federation
- | Australian Pipelines & Gas Assoc.
- | WA Mining Club
- | Chamber of Commerce Industry WA
- | Northern Territory Business Network
- | Toowoomba & Surat Basin Enterprise
- | Australian Dial Before You Dig Assoc.
- | Family Business Association

Civil Contractors Federation

Brooks Hire has been a member of the Civil Contractor Federation since the early days. Being a member throughout our company's growth has shaped the way we do business with our civil clients. We know the industry well and continue to provide an excellent service to the civil construction industry throughout Australia. We also sponsor the Golf Day and Earth Awards annually.

QUALITY ASSURED

Our commitment to meet customer satisfaction and legal requirements in the industry.

ISO 9001 - Quality Management System (QMS)

Brooks Hire Service has voluntarily undertaken the requirements to achieve an ISO 9001 Certification. This certification requires that we meet at least five mandatory requirements for a QMS:

The Bureau Veritas Certification certificate is recognised as a symbol of excellence worldwide. It demonstrates our achievement and continued commitment to conduct our business in a thoroughly professional and consistent manner.

General Quality Management System

Production of a Quality Manual, Control Documents, and Control of Records.

Management Responsibility

Commitment to customer focus, defining responsibility, authority & communication.

Resource Management

Competence, awareness and training for human resources and work environment.

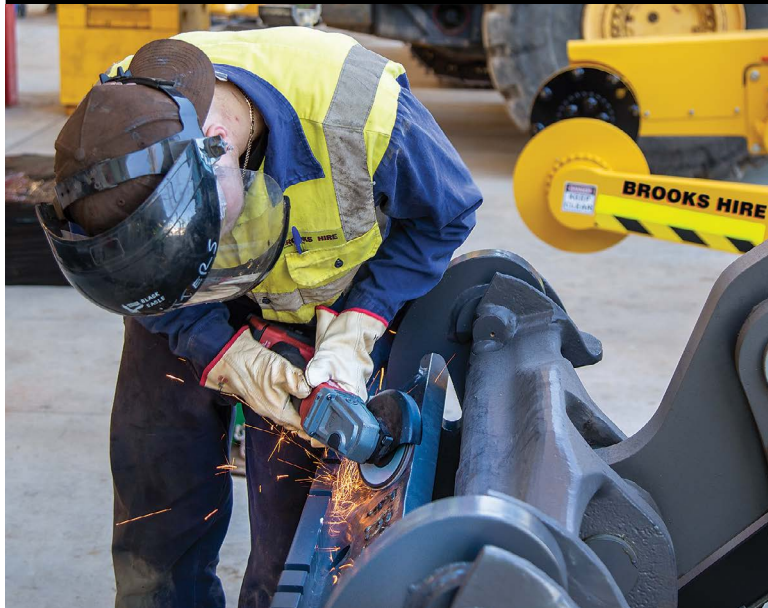

Product Realisation

The provision to plan, create and supply a service.

Measurement, Analysis & Improvement

Assessment of customer satisfaction, internal auditing & taking corrective actions.

Health and Safety

Safety is the number one priority in our workplace. Brooks Hire Service is committed to the ongoing improvement of safety in our workplace.

BROOKS

ISO 45001 - Occupational Health and Safety Management System

This certification demonstrates our knowledge and control over hazards and risks present in the workplace. Our compliance ensures that we implement practical policies and objectives to manage the health and safety of our employees. The benefits of this certification are:

- **Encourages A Culture Of Safety**
Staff are educated on safety policies and actively follow procedures.
- **Reduces Workplace Incidents**
A proper Safety Plan provides greater control over potential hazards.
- **Enhances Our Reputation**
As a safe and reliable partner, contractor & supplier.
- **Demonstrates Our Commitment**
To ongoing improvement of safety performance.

ENVIRONMENT

Taking a leadership approach to protect our most important assets.

HYBRID EXCAVATOR INVESTMENT SET TO PAY OFF FOR WA'S BROOKS HIRE

Down To Earth Magazine - Issue 58, 2012

Brooks Hire Service are industry leaders when it comes to taking a proactive approach to environmental sustainability. Our company was one of the first plant hire companies in Australia to invest in Hybrid machinery which reduce fuel consumption and CO2 emissions. Since then Brooks Hire has been taking active steps to provide clients with sustainable options. Some examples of the green equipment that Brooks Hire has added to the fleet include solar panels, solar powered lights, CCTV's and signs, solar battery storage systems, and more recently, portable hybrid generators.

ISO 14001 - Environmental Management System

ISO 14001 is the international standard that specifies requirements for an effective Environmental Management System (EMS). Brooks Hire Service voluntarily acquired this certification and adhere to strict compliance obligations focusing on reducing waste and improving resource efficiency.

COMMUNITY

The Brooks Hire philosophy involves contributing to the foundations of the community around us. As an Australian family owned and operated business, we are committed to 'giving back' to our fellow Australians.

We support many charity groups, voluntary organisations, community groups and sporting clubs at a grass roots level, fostering community spirit and engagement. From providing donations to lending our machinery, our involvement with the community stretches far and wide.

Mandurah Wildlife Rescue

'It's NOT Your Fault 4 Kids'

Kaarakin Conservation Centre

Adelaide Hills Bushfire Cleanup

The Big Blue Digger Project

Proudly supporting

Brooks Hire Service is proud to announce the 'Big Blue Digger' project in conjunction with Ronald McDonald House Charities WA. Ronald McDonald House Charities offers support and essential care to the families of sick children, particularly those who live in remote locations.

We purchased this brand new Komatsu PC200 Excavator and have pledged to donate part of the hire rate to RMHC WA for every hour that it's on hire.

Just some of the groups we support:

Indigenous Participation

In 2023, Brooks embarked on a joint venture (JV) with 100% Aboriginal owned mining service contractor, Olive Branch Resources (OBR). Registered as BROOKS OBR MAIA, the purpose of this joint venture is to give back to the Aboriginal community, and focus on the three success pathways for the traditional owners on country, to create a legacy for the next generation.

Three pathways to success:

AWARENESS - EMPLOYMENT - BUSINESS OPPORTUNITIES

In 2022, Brooks commissioned the services of talented Indigenous artist, Sister Danielle Champion to design an artwork for our new Volvo prime mover. The piece is called "The Seven Sisters", and has a special Indigenous story behind it.

In 2023, Danielle Champion and the Champion family conducted cultural awareness training with the Brooks team. To greater understand Aboriginal seasons, Danielle and the Brooks team combined their talents to produce 'Seasons'. The artwork reflects the six Aboriginal seasons.

Sister Danielle Champion (OBE COO) - left
and Lenore Brooks (Brooks CBO)

Some of the Indigenous communities we support.

In April 2023, Brooks recognised an opportunity to offer ongoing support to the Aboriginal community by creating a charity machine in our fleet. We used Danielle Champion's artwork to decorate a telehandler, and asked Danielle to choose an Aboriginal charity that was close to her heart. Danielle chose Binar Futures.

Binar Futures is an Aboriginal youth support program that brings young people into contact with their culture. A percentage of all profits earned by the telehandler goes directly to Binar Futures.

Western Heat Indigenous State Netball Team is a community lead initiative that was started by Katrina and Winston Abraham in 2018. In January 2023, Brooks proudly sponsored the supply of all team bibs for the Western Heat girls.

The National Aboriginal and Torres Strait Islander Championships is a 72-hole stroke event open to Aboriginal and/or Torres Strait Islander people. Brooks sponsored the 2023 event, covering various expenses, including venue rental, equipment, player transportation, accommodation, and awards ceremony arrangements.

The Indigenous Emerging Business Forum (IEBF) is a not-for-profit organisation that focuses on encouraging and assisting employment and business development opportunities for First Nations peoples. At the 2023 event, Brooks Hire was proud to be a VIP level table sponsor, enabling a table of 10 Aboriginal community members to attend.

Brooks Hire has Australia covered with over 5,000 pieces of equipment nation wide.

International

Brooks Hire has the capability to provide long term hire of equipment internationally. Please contact us with the details.

National

All of our branches are fully operational and are staffed by friendly professionals who are available to help you 24/7. We are able to deliver the equipment that you need to any location in Australia.

Australian Owned

Brooks Hire are 100% Australian owned and operated. We also own all of our branch locations. This allows us to invest heavily in state of the art infrastructure tailored to our clients' needs.
