ABOUT US

THE BROOKS HIRE STORY

Brooks Hire is the largest, privately owned construction equipment hire company in Australia. We specialize in the supply of equipment to the civil and mining industries.

5

1979 | The Beginning

Brooks Hire Service was established in 1979 when Doug Brooks purchased two unservicable compressors on bankcard.

Brooks Hire Service is 100% Australian owned and operated. We've built our reputation of reliability and integrity from our humble beginnings in 1979.

We act with honesty and focus on building strong relationships with our clients, from large public companies, to smaller private customers. This ensures that we understand every client's needs. Our team always aims to exceed expectations.

1993 | Moving upwards

Brooks Hire purchase a new premises in Canning Vale. The yard was a blank canvas and Doug purpose built the infrastructure to accommodate the growing business. Our first WA600 Wheel Loader is purchased.

1982 | First mobile plant

An 8 tonne JEC crane was purchased by tender in 1982. At the time, Doug was operating the business from a shed at Eneabba and living in a humpy at the back of the shed while also working locally as a fitter.

1987 | The first branch

Brooks Hire open in Hogarth Street, Cannington WA and hire our first apprentice.

2002 | Stuart joins the team

Stuart Brooks joined the family business in 2002 as an Apprentice Plant Mechanic before moving into the Hire Department. Today Stuart is the General Manager.

1997 | A milestone

Brooks Hire reaches 100 machines on hire!

2000 | A Family Business

Eldest son, Keith Brooks (left) and cousin Steve Drage join the team as Apprentice Plant Mechanics. They are now Service Manager, and Field Service Manager respectively.

2009 | A Second Branch

Brooks Hire opens their second branch, expanding to Karratha WA.

2012 | Lenore Brooks comes aboard

After completing her Business Degree, Lenore Brooks joins the Brooks Hire Team as our Business Development Manager.

2003 | First Harley Giveaway

Brooks Hire introduces their inaugural 'Harley Davidson Motorbike Giveaway' competition with their first winner being Complete Underground Power.

2014 | New interstate branches

Brooks Hire expands to the Northern Territory and New South Wales with new branches in Darwin and Sydney. New branches open in Brisbane, QLD and Port Hedland, WA.

2015 | Continued Growth

Brooks Hire expands to Melbourne VIC and opens new branches in Kalgoorlie & Newman, WA plus Toowoomba QLD.

2013 | Brooks Goes Interstate

Brooks Hire expands to Dalby, Queensland and reaches 500 machines on hire.

Brooks Hire Service is certified to ISO 9001:2015, ISO 14001:2015 and AS-NZS 4801:2001 Standard.

2019 | Celebrating 40 Years In Business

Brooks Hire celebrates 40 years in business with over 3,000 pieces of hire equipment Australia wide. We open our 14th branch in Mackay, QLD.

2016 | Brooks Goes National

Brooks Hire expands to South Australia with a new branch in Adelaide giving us Australia wide coverage. Another new branch opens in Bunbury WA.

Based on our reliability and trusted reputation, Brooks Hire has now grown to include 14 branches Australia wide, with over 3000 pieces of equipment for hire. We are ready to meet your requirements so that you can start your job on time, every time. We deliver WHAT you need, WHERE you need it, WHEN you need it.

Why Choose Brooks?

Hire

Brooks Hire has over 3000 pieces of equipment available for hire and our fleet is growing every day. We source the right machine for the right job so that our clients can focus on what's important to them - getting the job done. Equipment is available for short, long and permanent hire.

Transport

To facilitate on time delivery of plant, Brooks Hire Service have five modern low loaders in the fleet and a team of subcontractors available to deliver machinery to your designated site efficiently, economically and - most importantly - on time, wherever your job site is located.

Service/Parts

We have a large team of qualified in-house service technicians, equipped with the latest tools to keep our machinery operating smoothly. We keep a myriad of spare parts in stock so that our services are efficient and your downtime is reduced if there is ever a fault.

We offer you a fully rounded service.

Servicing Your Sector

Every industry, we've got you covered.

Civil

There are not many large civil construction projects that Brooks Hire have not been involved in.

Road/Rail

Our Clients

RioTinto

Supplying Australia's leading companies

Brooks Hire Service are the preferred suppliers to many of Australia's leading mining and civil companies.

Our clients have come to trust Brooks Hire through many years of reliable service. We are continuously acquiring new equipment to ensure that our clients have access to the latest model, low hour machines.

We are able to supply equipment to any mine site specification.

Win a Harley Davidson Motorcycle!

Every year since 2003, Brooks Hire Service give our valued clients the opportunity to win a brand new Harley Davidson Motorcycle. Every invoice over \$300 goes into the draw and the lucky winner is drawn at our annual Christmas party. We have given away 16 brand new Harley Davidson motorcycles to our clients so far.

Rewarding our valued customers

Civil Contractors Federation

Brooks Hire has been a member of the Civil Contractor Federation since the early days. Being a member throughout our company's growth has shaped the way we do business with our civil clients. We know the industry well and continue to provide an excellent service to the civil construction industry throughout Australia. We also sponsor the Golf Day and Earth Awards annually.

QUALITY ASSURED

ISO 9001

BUREAU VERITAS
Certification

Our commitment to meet customer satisfaction and legal requirements in the industry.

ISO 9001 - Quality Management System (QMS)

Brooks Hire Service has voluntarily undertaken the requirements to achieve an ISO 9001 Certification. This certification requires that we meet at least five mandatory requirements for a QMS;

General Quality Management System
Production of a Quality Manual, Control Documents, and Control of Records.

Management Responsibility
Commitment to customer focus, defining responsibility, authority & communication.

Resource Management
Competence, awareness and training for human resources and work environment.

Product Realisation
The provision to plan, create and supply a service.

Measurement, Analysis & Improvement
Assessment of customer satisfaction, internal auditing & taking corrective actions.

The Bureau Veritas Certification certificate is recognised as a symbol of excellence worldwide. It demonstrates our achievement and continued commitment to conduct our business in a thoroughly professional and consistent manner.

Health and Safety

Safety is the number one priority in our workplace. Brooks Hire Service is committed to the ongoing improvement of safety in our workplace.

AS/NZS 4801

BUREAU VERITAS
Certification

AS/NZS 4801 - Occupational Health and Safety Management System

This certification demonstrates our knowledge and control over hazards and risks present in the workplace. Our compliance ensures that we implement practical policies and objectives to manage the health and safety of our employees. The benefits of this certification are;

Encourages A Culture Of Safety

Staff are educated on safety policies and actively follow procedures.

Reduces Workplace Incidents

A proper Safety Plan provides greater control over potential hazards.

Enhances Our Reputation

As a safe and reliable partner, contractor & supplier.

Demonstrates Our Commitment

To ongoing improvement of safety performance.

ENVIRONMENT

Taking a leadership approach to protect our most important assets.

HYBRID EXCAVATOR INVESTMENT SET TO PAY OFF FOR WA'S BROOKS HIRE

Above Left: Colin Brooks, VMS Construction & Utility Sales Manager, Grant Menham, WA Business Development Manager, Construction & Quarry, Doug Brooks, Proprietor Brooks Hire And Alex Brooks, Business Graduate Brooks Hire And Alex Doug's Daughter Rebecca. A Commemorative Plaque For Purchasing Two Komatsu Hybrid Excavators.

WITH THE RECENT PASSING OF THE FEDERAL GOVERNMENT'S CARBON TAX LEGISLATION TECHNOLOGY SUCH AS KOMATSU'S HYBRID EXCAVATORS LIKELY TO BECOME MORE SOUGHT AFTER, ACCORDING TO DOUG BROOKS, OWNER OF WESTERN AUSTRALIA BASED PLANT HIRE SPECIALIST BROOKS HIRE. The company – one of the largest Komatsu fleet owners in Australia with around 250 Komatsu units out of a total fleet size of 500 – has recently taken delivery of four HB215LC-1 Hybrid excavators, part of what Brooks sees as "the way of the future".

Given WA's mining boom, there is no shortage of work for any of Brooks Hire's equipment, but he believes the Hybrid will be a good investment for the future.

"Right now, things are pretty busy, but when things back off again, they'll be good to have in our fleet giving us a bit of an edge on our competitors," Doug said.

"I think it's time to come that they will be sought after, especially as more contracts are drawn up with environmental issues in mind and the carbon tax is implemented.

"Now that the carbon tax legislation has been passed, as it filters down to the industry, it's clear there will be more and more organisations, especially government departments and bigger companies that want carbon tax credits – and technology like the Hybrid has to tick the boxes for it," he said.

"It's definitely a step in the right direction."

One of Brooks Hire's Hybrids is on hire to a customer in the Pilbara region of WA, with another working for Alex to the south of Perth, and according to Brooks are delivering significant fuel savings to his clients.

"They are achieving about 9 litres an hour, as opposed to a conventional machine which is up to 14 litres an hour. As they pay for

the fuel, that's saving them well over a drum a week, which they are pretty happy about," he said. "But it's not just the cost per litre of the fuel. If you can save a tanker fuel run a week, that's another transport and delivery saving you are potentially making."

"Savings a drum of fuel a week, that's \$200 at current prices by the time it's in the machine. Multiply that by 52 weeks a year, then the

eight to nine years you have the machine for, and it's paid for itself. "Those figures are very encouraging."

Based on his experiences, Doug is looking forward to seeing the Hybrid technology come to other types of earthmoving equipment.

"Komatsu needs a pat on the back for developing the Hybrid excavator technology, and I would like to see it implemented in trucks and other equipment," he said. ■

COVER PHOTO: BROOKS HIRE

Brooks Hire Service are industry leaders when it comes to taking a proactive approach to reduce our carbon footprint through our investment in Hybrid plant. The technology used in these machines allows for a significant reduction in fuel without compromising on power. This reduces carbon output which saves our clients money on both fuel costs and carbon taxes. We are committed to continue our investment in hybrid technology and explore future technologies that will benefit our environment.

ISO 14001 - Environmental Management System

ISO 14001 is the international standard that specifies requirements for an effective Environmental Management System (EMS). Brooks Hire Service voluntarily acquired this certification and adhere to strict compliance obligations focusing on reducing waste and improving resource efficiency.

COMMUNITY

The Brooks Hire philosophy involves contributing to the foundations of the community around us. As an Australian family owned and operated business, we are committed to 'giving back' to our fellow Australians.

We support many charity groups, voluntary organisations, community groups and sporting clubs at a grass roots level, fostering community spirit and engagement. From providing donations to lending our machinery, our involvement with the community stretches far and wide.
