# ABOUT US

## THE STORY OF BROOKS

## BROOKS

5

Proudly 100% Australian family owned and operated since 1979, Brooks Group has grown from humble beginnings into the nation's largest privately owned earthmoving and construction equipment hire company. Built on a reputation for reliability, integrity, and service excellence.

**1979...** at the age of just 23, Doug Brooks took a risk and purchased two unserviceable air compressors on bank card.

Between working 12 hour shifts as a Fitter on Barrow Island, Doug repaired the compressors and soon started hiring them out.

Not long after that, Doug quit his job and opened 'BROOKS HIRE'. He ran his business from a tin shed in the remote WA town of Eneabba while living in a humpy at the back of the shed.

**1987...** After meeting Roma the love of his life, Doug moves the business to Perth where they open a branch in Cannington.

**1982...** Doug purchased his first piece of mobile equipment, a JEC crane. He drove the crane for 13 hours from Perth to Eneabba to get it on site.

**1993...** Doug and Roma purchase a vacant block of land in Canning Vale. Doug custom builds the infrastructure to accommodate his growing business.

**2003...** Brooks Hire introduce their 'Harley Davidson Motorbike Give-away' competition with the first winner being Complete Underground Power.

**2009...** The GFC hits Brooks hard but Doug takes a risk and opens a second branch in Karratha, WA. It pays off and is a real turning point for the business.

**2019...** The Brooks Family celebrates the 40 years in business.

**2020...** The Brooks Transport Division is formed.

**2021...** New divisions - Brooks Access, Brooks Equipment, and Brooks Site Services are formed.

We are also winners of the RISE Large Business Award, and Australian Earthmoving Hire Company of the Year Award.

**2022...** Over 1000 machines on hire! Two Branches open in Geraldton and Broome, WA. Brooks Cranes and Brooks Airways Divisions are launched.

Hire Company Of The Year, Finalist

A new Branch opens in Tom Price, WA, making it a total of 21 branches Australia wide.

**2024...** A major player in the mining industry. Brooks Equipment Sales has signed an exclusive dealership agreement with the world's third largest construction equipment manufacturer, XCMG.

XCMG equipment will be available from Brooks Equipment Sales in Western Australia, South Australia, the Northern Territory, and the majority of Queensland.

Brooks Mining division was launched.

In 2023, Brooks Group Australia embarked on a joint venture (JV) with 100% Aboriginal owned mining service contractor, Olive Branch Resources (OBR). Registered as BROOKS OBR MAIA, the purpose of this joint venture is to give back to the Aboriginal community and create a legacy for the next generation.

**2025...** A new branch open in Queensland and two branches open in New South Wales making it a total of 29 branches Australia wide.

Brooks Parts and Brooks Mechanical Divisions are launched.

# Why Choose Brooks?

Brooks has been supplying earthmoving plant to the Construction and Mining industries since 1979. We are the largest privately owned earthmoving and construction equipment hire company in Australia.

**Brooks Group Australia (BROOKS)** is made up of seven divisions:

- **Brooks Access** - Hire & sale of access equipment.
- **Brooks Airways & Medical Air** - Fido flights, corporate charters, medical evacuation (Medical Air) and urgent air freight.
- **Brooks Cranes** - Hire of cranes.
- **Brooks Equipment Sales** - Sale of earthmoving & construction equipment.
- **Brooks Finance** - Offers quick and easy finance options.
- **Brooks Fleet** - Long and short term fleet hire.
- **Brooks Hire Service** - Hire of earthmoving & construction equipment.
- **Brooks Mechanical** - Offers a 24/7 on-call mobile mechanical service.
- **Brooks Mining** - Hire of mining equipment.
- **Brooks OBR MAIA** - A joint venture in support of Aboriginal community specialising in hire of earthmoving & construction equipment.
- **Brooks Parts** - Stock aftermarket replacement parts for earthmoving, mining, and construction machinery.
- **Brooks Site Services** - Design, installation, and maintenance of site services.
- **Brooks Transport** - Transport of heavy machinery & earthmoving equipment.

## Every industry, we've got you covered!

### Civil

There are many large civil construction projects that Brooks Hire have been involved in.

### Road/Rail

We have every machine required for the construction of roads, railways, bridges, tunnels and more.

### Mining

Our Australia wide mining clients benefit from our range of state of the art mining machinery.

### Demolition

We'll supply the required earthmoving machines and plant equipment to facilitate your demolition project.

### Pipeline

You'll find all of the necessary machines and attachments for pipeline construction at Brooks Hire.

### Energy

Providing equipment for constructing refining plants and the day to day operations of the facility.

## Brooks Hire

Over 5,000 pieces of equipment available for short term, long term and even permanent hire. If you require a specific piece of equipment for a long term hire job, we can purchase it for you brand new.

## Brooks Mining

In 2024, the Brooks Group Australia launched a new division: Brooks Mining. With over 45 years' experience in the Australian mining industry, Brooks Mining has the industry knowledge to tailor mining equipment hire packages to suit individual projects.

The Brooks Mining fleet includes XCMG excavators, front end loaders, haul trucks, and graders. The equipment has been put to work in the Goldfields, Pilbara, and Kimberley regions of Western Australia - some of the harshest mining environments in the world.

Brooks Mining also has the capability to offer mining equipment on a hire to purchase plan, giving our mining clients the option of owning their own equipment. New equipment can be purchased to cater to long term hire clients.

## BRINGING IN THE BIG GUNS

# BROOKS

MINING

Machinery can quickly and easily be scaled up or down as projects expand or contract. All hire machines are dispatched to the customers' specifications. Brooks Mining has access to all Brooks Hire Service assets and equipment for service requirements across the country.

Safety, quality, and service are our number one priority. Our fleet is meticulously maintained to the highest standards, and we have a dedicated team of experienced mechanics and service staff available on 24/7 callout.

## Brooks Site Services

Brooks Site Services is a solution-based specialist division in early work packages, from construction water supply and site facilities to power generation and traffic management. With a focus on net zero equipment with solar, hybrid, electric, and battery options to help reduce emissions and operational costs.

The differentiating factor of our Site Services division is that we have the capability to design, supply, install, and manage each project on a national basis. We also have the capability of purchasing equipment for specific projects with hire and sales options readily available.

Our team is backed up with a purpose-built workshop, trade qualified technicians, and hire coordinators who are always on standby for around the clock service.

## COMPLETE SITE SOLUTIONS

## Brooks Fleet

Brooks Fleet offers a diverse range of late-model, air-conditioned light commercial vehicles for short- and long-term hire.

Our fleet includes high-quality 4WDs, utes, wagons, tray backs, and well-body vehicles, as well as mini vans and buses from trusted brands - all rigorously inspected before and after each hire for your safety and peace of mind.

Brooks Fleet has a strong presence in the mining and civil sectors, supplying vehicles that meet site-specific requirements. We offer customisation options to ensure your fleet is equipped for the toughest conditions. Every vehicle in our fleet is maintained to manufacturer specifications at our dedicated service centre, where experienced, qualified mechanics ensure peak performance and reliability.

## Brooks OBR MAIA

In 2023, Brooks embarked on a joint venture (JV) with 100% Aboriginal owned mining service contractor, Olive Branch Resources (OBR). Registered as BROOKS OBR MAIA, the purpose of this joint venture is to give back to the Aboriginal community, and focus on the three success pathways for the traditional owners on country, to create a legacy for the next generation.

Three pathways to success: AWARENESS - EMPLOYMENT - BUSINESS OPPORTUNITIES

**AWARENESS.** At Brooks, we recognise the importance of Australia's Aboriginal and Torres Strait Islander heritage and pay respect to their culture, history, and lifestyle. Brooks is committed to incorporating Indigenous culture, people, and businesses into all aspects of our company.

Sister Denielle Champion (Chief Operating Officer - Olive Branch Enterprise) - left  
Lenore Brooks (Director - Brooks OBR MAIA) - right

## LEGACY THROUGH PARTNERSHIP

# BROOKS

OBR MAIA

In 2022, Brooks commissioned the services of talented Indigenous artist, Sister Danielle Champion to design an artwork for Brooks' new Volvo prime mover. Called "The Seven Sisters", the piece represents the significant Dreamtime story of the same name.

In 2023, the Champion family conducted cultural awareness training with the Brooks team. Together with Sister Danielle, the team created the artwork "Seasons", showcasing the six Aboriginal seasons.

*Birak (December/January), Bunuru (February/March), Djeran (April/May), Makaru (June/July), Djilba (August/September), and Kambarang (October/November).*

Aboriginal businesses will also benefit by being a supplier to not only BROOKS OBR MAIA, but also Brooks Group Australia, directly.

### BROOKS OBR MAIA

☎ 1300 BROOKS (276 657)

@ info@brooksobrmaia.com.au

🌐 www.brookshire.com.au

**EMPLOYMENT.** By identifying and creating sustainable employment opportunities we can ensure that we build upon the capabilities of Brooks, and Aboriginal and Torres Strait Islander people. In this partnership, we envision and foresee:

- Rise in Aboriginal engagement through the Joint Venture
- Aboriginal apprentices in all Brooks locations
- Increase in Aboriginal employment in all Brooks locations

**BUSINESS OPPORTUNITIES.** Aboriginal communities will see success and growth in employment pathways and educational pathways (apprenticeships and internships) that will be available to them.

# Brooks Transport

## The Evolution of Brooks Transport

The first piece of mobile machinery that was ever purchased by Brooks Hire Service was an 8 tonne JEC crane. The machine was located in Perth, and it needed to be transported to Eneabba, some 300kms away. Unable to afford the cost of transport, Doug Brooks decided to drive the crane there himself. After a near miss with a passing truck, it was clear to Doug that he needed to come up with a safe and affordable way to transport his machines.

A short time after this, Brooks Hire Service invested in their first prime mover, a White Road Commander. As the business grew, so did their fleet of trucks.

Fast forward to 2020 and it was clear that Brooks Hire Service now had the capacity to branch out and establish a national transport business in its own right. Four brand new Volvo FH540 6x4 prime movers were purchased along with several custom made low loader trailers. These vehicles joined the existing fleet of prime movers, tilt tray trucks, and tipper trucks to form Brooks Transport.

Brooks Transport is no longer limited to only transporting our own machines. We have the capability to provide a fully rounded freight service for any type of cargo, to any location in Australia.

## HEAVY HAULAGE NATIONWIDE

# BROOKS

TRANSPORT

Brooks Transport fleet of late model prime movers and low loaders are able to carry loads up to 85 tonnes.

 AIR AMBULANCE

## Our Clients

With over 45 years experience, Brooks Hire Service is the preferred equipment supplier to many of Australia's leading mining and civil companies. We have the capability to supply equipment to any mine site specification.

Our clients have come to trust Brooks Hire through many years of reliable service. We are continuously acquiring new equipment to ensure that our clients have access to the latest model, low hour machines.

## Supplying Australia's Leading Companies

Some of our recent contracts:

### Project Perdaman

**Client** Clough-Saipem JV

**Duration** 2024 - ongoing

**Contract Sum** \$7 million +

#### Equipment

Graders, dozers, excavators, & more

#### Outcome

Project still in operation.  
Client satisfied with machinery.

### Brockman Syncline

**Client** NRW

**Duration** 2024 - Ongoing

**Contract Sum** \$5 million +

#### Equipment

Supply of multiple plant and earthmoving equipment.

#### Outcome

Project still in operation.  
Client satisfied with machinery.

### EVA Copper Mine

**Client** MACA / Thiess

**Duration** 2025 - on going

**Contract Sum** \$5 million +

#### Equipment

Supply of multiple plant and earthmoving equipment

#### Outcome

Project still in operation.  
Client satisfied with machinery.

### KCGM Project

**Client** Primero

**Duration** 2024 - Ongoing

**Contract Sum** \$6 million +

#### Equipment

Supply of multiple plant and earthmoving equipment

#### Outcome

Project still in operation.  
Client satisfied with machinery.

## Our Partners

## The Best Brands and The Latest Models

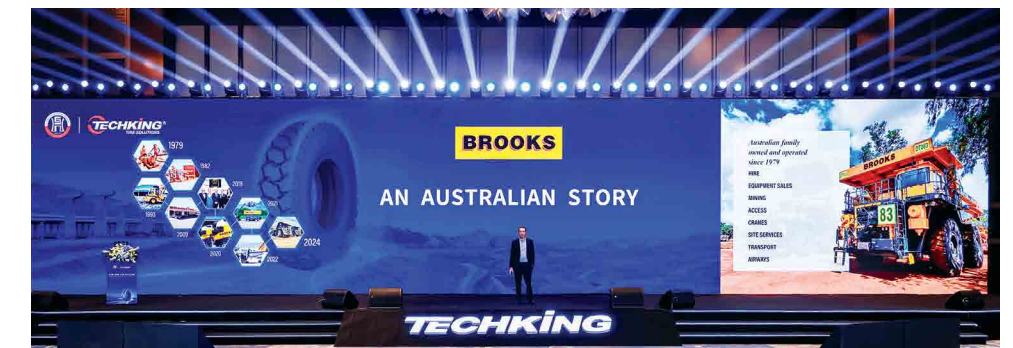

When you think of the best in the business, you think of XCMG, Komatsu, Caterpillar, Volvo, Hitachi, Husqvarna, Dynapac, Bomag, JCB, John Deere, Bobcat and Isuzu.

We support the most respected and reliable brands so that you can be sure you're getting the best quality equipment available. Our fleet is expanding on a daily basis as we source the newest and latest model machines.

Brooks Group Australia has also dedicated field service technicians and qualified product specialists who are always on standby for around the clock service.

We supply equipment and site services on some WA's largest projects, proving the trust that customers put into Brooks as their supplier.

## Industry Association

### We are proud members of:

- ▮ Hire & Rental Industry Association
- ▮ The Crane Industry Council of Australia
- ▮ Elevated Work Platforms Association
- ▮ Telescopic Handlers Association
- ▮ Civil Contractors Federation
- ▮ Australian Pipelines & Gas Assoc
- ▮ WA Mining Club
- ▮ Chamber of Commerce Industry WA
- ▮ Northern Territory Business Network
- ▮ Toowoomba & Surat Basin Enterprise
- ▮ Australian Dial Before You Dig Assoc.
- ▮ Family Business Association
- ▮ Australian Drilling Industry Association (AIDA)
- ▮ Austmine
- ▮ Australia China Business Council
- ▮ China Chamber of Commerce Australia
- ▮ Demolition Industry Association Australia
- ▮ Institute of Quarrying Australia

Brooks Hire has been a proud Civil Contractors Federation member since our early days, shaping how we work with civil clients.

We also sponsor the CCFWA Golf Day and Earth Awards each year.

## QUALITY ASSURED

Our commitment to meet customer satisfaction and legal requirements in the industry.

### ISO 9001 - Quality Management System (QMS)

Brooks Hire Service has voluntarily undertaken the requirements to achieve an ISO 9001 Certification. This certification requires that we meet at least five mandatory requirements for a QMS:

The Bureau Veritas Certification certificate is recognised as a symbol of excellence worldwide. It demonstrates our achievement and continued commitment to conduct our business in a thoroughly professional and consistent manner.

#### General Quality Management System

Production of a Quality Manual, Control Documents, and Control of Records.

#### Management Responsibility

Commitment to customer focus, defining responsibility, authority & communication.

#### Resource Management

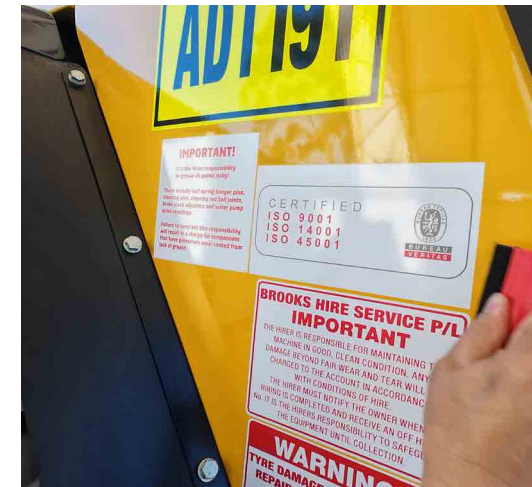

Competence, awareness and training for human resources and work environment.

#### Product Realisation

The provision to plan, create and supply a service.

#### Measurement, Analysis & Improvement

Assessment of customer satisfaction, internal auditing & taking corrective actions.

# Health and Safety

Safety is the number one priority in our workplace. Brooks Hire Service is committed to the ongoing improvement of safety in our workplace.

# BROOKS

CERTIFIED  
ISO 45001

## ISO 45001 - Occupational Health and Safety Management System

This certification demonstrates our knowledge and control over hazards and risks present in the workplace. Our compliance ensures that we implement practical policies and objectives to manage the health and safety of our employees. The benefits of this certification are:

- 
**Encourages A Culture Of Safety**  
 Staff are educated on safety policies and actively follow procedures.
- 
**Reduces Workplace Incidents**  
 A proper Safety Plan provides greater control over potential hazards.
- 
**Enhances Our Reputation**  
 As a safe and reliable partner, contractor & supplier.
- 
**Demonstrates Our Commitment**  
 To ongoing improvement of safety performance.

# ENVIRONMENT

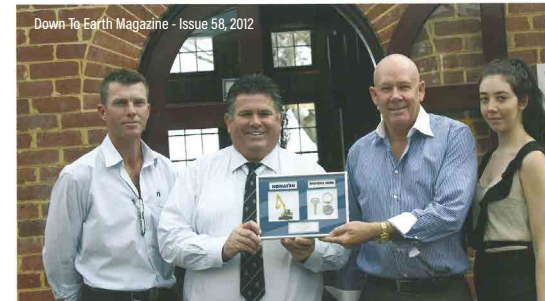

CERTIFIED  
ISO 14001

Taking a leadership approach to protect our most important assets.

## HYBRID EXCAVATOR INVESTMENT SET TO PAY OFF FOR WA'S BROOKS HIRE

Down To Earth Magazine - Issue 58, 2012

The newest addition to our hire fleet:  
Solar Light Towers, ZBP45 Atlas Copco Battery Pack & Solar Panels

Brooks Hire Service are industry leaders when it comes to taking a proactive approach to environmental sustainability. We were among the first plant hire companies in Australia to invest in hybrid machinery, reducing both fuel consumption and CO<sub>2</sub> emissions. Since then, we've continued to expand our sustainable offerings, adding electric loaders, scissor lifts, knuckle booms, forklifts, solar panels, solar light towers, CCTV units and signs, solar battery packs, and more. We've also introduced a fleet of electric vehicles, giving our clients more green equipment choices than ever before.

## ISO 14001 - Environmental Management System

ISO 14001 is the international standard that specifies requirements for an effective Environmental Management System (EMS). Brooks Hire Service voluntarily acquired this certification and adhere to strict compliance obligations focusing on reducing waste and improving resource efficiency.

## Indigenous Participation

### Binar Futures

Since April 2023, one of Brooks Access' telehandlers has been generating funds to support Aboriginal youth.

Using Danielle Champion's "Seven Sisters" artwork to decorate the telehandler, Brooks asked Sister Danielle to select a charity close to her heart for proceeds to go to; she chose Binar Futures.

Binar Futures is an Aboriginal youth support program that brings young people into contact with their culture, providing leadership and development opportunities. A percentage of all profits earned by the telehandler goes directly to Binar Futures.

### Indigenous Literacy Foundation

Taking part in Good Sammy's Containers for Change, the Brooks team are collecting 10c containers, to raise funds for the Indigenous Literacy Foundation (ILF).

The ILF is a not-for-profit charity which respects the unique place of Australia's First People and draws on the expertise of the Australian book industry.

With the understanding that Reading Opens Doors - that is, doors to future opportunities and choices, ILF's purpose is to invest in Aboriginal and Torres Strait Islander remote Communities to provide the tools and resources they request to shape the direction of their children's literacy future.

## Supporting Our Community

As an Australian family owned and operated business, we are committed to giving back to our fellow Australians. We support many charity groups, voluntary organisations, community groups and sporting clubs at a grass roots level, fostering community spirit and engagement.

Just some of the groups we support:

Brooks Hire has Australia covered with over 5,000 pieces of equipment nation wide.

## International

Brooks Hire has the capability to provide long term hire of equipment internationally. Please contact us with the details.

## National

All of our branches are fully operational and are staffed by friendly professionals who are available to help you 24/7. We are able to deliver the equipment that you need to any location in Australia.

## Australian Owned

Brooks Hire are 100% Australian owned and operated. We also own all of our branch locations. This allows us to invest heavily in state of the art infrastructure tailored to our clients' needs.
