WHO ARE BROOKS SITE SERVICES?

Brooks Site Services is a part of the Brooks Hire Group, an Australian family owned and operated business since 1979. With over 40 years experience in construction machinery, we've built a solid reputation of reliability and integrity.

We specialise in all aspects of site services from power, and water management, to on site buildings, and light vehicle hire. The differentiating factor of our Site Services division is that not only does Brooks supply the equipment, we now have the capability to design the whole system, install, and maintain it. Our team of professionals is backed up with a purpose-built workshop and test facility, trade qualified technicians, and hire coordinators who are always on standby for around the clock service.

We have the technical expertise to engineer a complete dewatering or power generation solution for your work site.

HOW DID IT ALL BEGIN?

Doug Brooks with one of his first compressors, and Stuart Brooks with the new stock

The very first pieces of equipment that Doug Brooks purchased for Brooks Hire back in 1979, was two used un-serviceable compressors. After getting the compressors going, he started hiring them out, then graduated to pumps, and so the business grew.

In 2021, managing Director Stuart Brooks reflected on where the business began and purchased a whole new fleet of quality compressors, pumps, generators, and light towers. "Just hiring the equipment out didn't fit with our company ethos of 'service first,'" remarked Stuart. "We knew that with the right team, we could help our customers set up and maintain their whole work site."

In August 2021 Brooks sourced professional staff with extensive experience in construction and mine site management to kickstart the Site Services department.

Brooks Site Services has already made a footprint on work sites across WA, and are ready to expand to the rest of Australia.

We supply equipment and site services on some WA's largest projects, proving the trust that customers put into Brooks as their supplier.

WHAT CAN WE OFFER YOU?

■ RELIABILITY & QUALITY ASSURANCE

- ISO & Australian Standards in Quality, Health & Safety, and Environmental Management.
- Members of the Hire & Rental Industry Assoc, Civil Contractors Federation, APGA & more.
- Strong cash flow with the buying power to purchase new equipment when required.

■ INDUSTRY SPECIFIC SITE EQUIPMENT SUPPLIED

- Pumps & water management for all applications
- Generators from 5kVA to 2000kVA
- Air compressors from 75cfm to 1050cfm
- Lighting towers - diesel & solar
- Plate compactors
- Portable buildings
- Mobile fuel trailers & skid mounted fuel tanks
- Welding equipment
- Light vehicle Hire
- Remote CCTV & monitoring stations

If the equipment you require isn't in stock, Brooks has the ability to purchase it specifically for your job.

■ THE SERVICES ON OFFER

- Mine site dewatering, including FIFO dewatering technicians
- Construction water and dust suppression specialists
- Design, consultation, on site installation, commissioning & product training
- HDPE pipe supply & installation
- Pump rebuild & component workshop
- Workshop test tank facilities
- 24 / 7 help line, remote monitoring & management
- Water sampling & laboratory testing
- Wet hire of Hiab crane truck
- Competitive pricing with discount structure across all equipment categories.

Whether you're looking for an expert solution for your project or just need a prompt advice, we are always happy to assist you in any way possible!

BROOKS VALUES We take pride in our company values and act accordingly.

INTEGRITY - we strive to operate with integrity, in all aspects of the organisation; demonstrating responsibility, accountability and honesty in all that we do!

COMMITMENT - at Brooks, we are committed to providing the best for our customers and staff, at all levels of the company. Whether it be quality products and services for customers, or facilities and support for staff, Brooks are dedicated to exceeding expectations.

CONTINUOUS IMPROVEMENT - working with a continuous improvement approach, Brooks seeks to adapt, expand and improve all aspects of our business.

Generators
