

# GREEN ENERGY SOLUTIONS

**ZERO** NOISE  
 EMISSIONS  
 FUEL CONSUMPTION

**OFFERS ELECTRIC & HYBRID EQUIPMENT  
 AS WELL AS RENEWABLE ENERGY SITE SOLUTIONS**

Brooks Hire Service are industry leaders when it comes to taking a proactive approach to reduce our carbon footprint. Through our investment in Hybrid, Electric and Solar Powered equipment we are helping our clients to significantly lower their carbon footprint while achieving long-term cost savings.

Brooks Hire Service voluntarily acquired an ISO 14001 Environmental Management certification which is the International standard that specifies requirements for an effective Environmental Management System (EMS). We adhere to strict compliance obligations focusing on reducing waste and improving resource efficiency.

Brooks group of companies are committed to continue our investment in green energy solutions, and explore future technologies that will benefit our environment.

We can supply hybrid, electric and solar powered equipment in the following categories:
