

## Husqvarna LH 804

LH 804 is our most powerful compactor. It is fully hydraulic and has the power and capacity to effectively handle compaction of medium to thick layers of granular soil – from sand to rock fill. LH 804 is remote controlled, which allows the operator to stay at a distance from noise, diesel fumes and vibrations. It comes equipped with a Hatz 1D90V diesel engine and features a service friendly design and sturdy protective frame.

### **Built to create uptime**

The hydraulic transmission increases reliability, a renowned Hatz 1D90V engine reduces life cycle costs, while robust construction and heavy-duty components mean hours of valuable uptime.

### **Always in charger**

To avoid a discharged battery, the remote control comes with two batteries to switch between, of which one can always be kept charging in the dock station under the engine hood.

### **No hand and arm vibrations**

Bluetooth remote control lets you work up to a distance of 30 metres away in all weather conditions. This means no vibrations, no fumes and an unrivalled view of the worksite.

### **Handles the toughest jobs**

The fully hydraulic reversible plates are made to effectively handle even the most demanding jobs.

## FEATURES

- No hand and arm vibrations
- Always in charger
- Built to create uptime
- Handles the toughest jobs
- Sturdy and service friendly

Technical Specifications	
<b>ENGINE</b>	
Power output	11 kW
Exhaust emissions (CO2 EU V)	974.76 g/kWh
Power/fuel type	Diesel
<b>SPECIFICATIONS</b>	
Frequency	56 Hz
Speed	30 m/min
<b>DIMENSIONS</b>	
Weight	820 kg
<b>SOUND AND NOISE</b>	
Sound power level, guaranteed (LWA)	109 dB(A)
Sound pressure level at operators ear	98 dB(A)
<b>PACKAGING</b>	
Packaging length	1200 mm
Packaging width	800 mm
Packaging height	850 mm
Packaging volume	816 dm <sup>3</sup>
