

## SOLAR SKID

Brooks Hire stock rapid deployment solar skids that are modular units and can be scaled to suit any requirement. Deployed in minutes to suit temporary use such as after bushfires or floods or on construction projects to minimise install/removal time and site impact. The Solar Skid can be adjusted from zero to 40 degrees making it ideal to use in different regions to maximise solar yield. Constructed on a hot dip galvanised frame to ensure a long service life and structural rigidity.

### FEATURES

- Mounting: Ballast, Tube piles, Bolt-down anchor points
- Solar Tilt Angle: 0° - 40° one man lift
- Transport: Forklift ports, Interlocking stacking
- Deployment: Interlocking in rows

### GENERAL

- Power: 1.78kWp
- Voltage (Voc): 196.8v
- Current (Isc): 11.45A

### UNIT

- Dimensions: 4455mm x 2240mm x 300mm
- Weight: 750kg
- Per 40' flat bed: 22
- Rapid Deployment
